35121 PADOVA (PD)

Bellaria, 27/05/2013

**RE: Test Report No. 298675 issued on 10/10/2012 - clarification regarding normative reference**

With reference to the "Tensile strength test in accordance with standard UNI EN 14195:2005" detailed in the above-mentioned test report, here are the details we have obtained from the official catalogue of the respective standards bodies:

UNI EN 14195:2005 and DIN EN 14195:2005 are both the national transposition of the same European standard EN 14195 (published February 2005).

For this reason, the standards may be considered equivalent.

Should you require any additional information, please do not hesitate to contact us.

With kind regards
